Salah Elroweny, AIA, CGC, LEED AP, is a founding member of Innovative Group, a design-build firm in Pompano Beach, Florida. He specializes in designing and building mosques and Islamic institutions. As a registered architect and a general contractor, Elroweny plays the role of the traditional master builder who is responsible for a project from conception to completion. His designs are inspired by Islamic values and the rich history of mosque architecture, and consider the local site, current time, and technology.

Elroweny is a member of numerous organizations including the American Institute of Architects. He holds both a bachelor’s and master’s degree in architecture from the University of Nebraska-Lincoln.
